

# Notebooking Timeline

By

[www.homeschooling-ideas.com](http://www.homeschooling-ideas.com)

These timeline pages are designed to be used in a ringbinder. Print out the double page spread for each time period you wish to have. (If you know how to print double sided, then this works best.)

At the top of each page write the timeline date for that page.

Each page is dived into four section so you can split your timeline into categories.

Suggested categories could include :

Famous People

Art and Music

Events

Religion and Philosophy

Discoveries and Inventions

Politics

World History

US History

Or just use each section for a member of the family to add the things they feel were interesting about that time period!
